

# National Organization for the Professional Advancement of Black Chemists and Chemical Engineers (NOBCChE)

OHIO STATE UNIVERSITY CHAPTER

## Mission

*NOBCChE at The Ohio State University (OSU) is committed to the discovery, transmittal, and application of knowledge in the fields of science and engineering. The mission of NOBCChE at OSU therefore is to build an eminent community of scientists and engineers by increasing the number and retention rates of minorities in these fields on the OSU campus. We will achieve this mission through diverse programs designed to foster professional and social development and encourage students to pursue careers in science and technical fields. Also, we are focused on helping to create a conducive atmosphere for minority students to prosper. To this end, we will establish educational partnerships with other organizations on campus, municipalities, businesses, industries, other institutions and organizations in the public and private sectors.*

## Current Industry Interactions

- NOBCChE Annual Conference
- NOBCChE seminars at OSU
  - **Eric Coleman** (OSU alumnus, former NOBCChE president)
  - **Nodie Washington** (first African American woman to earn a PhD (1982) in chemistry at OSU)

## Demographic

A group of 10-12 graduate and undergraduate students (mainly graduate and minorities) in chemistry, biochemistry, and chemical engineering

## Contact Info

Group email
